## When in the Business of Real Estate

### Flipper Trust

---

---

---

---

---

---

---

- Title search fees charged by your lender
- Costs for preparing and filing mortgage documents
- Mortgage broker fees
- Fees for a valuation required for loan approval
- Lender's mortgage insurance

**5 years or life of the loan, whichever is shorter!!**

---

---

---

---

---

---

---

---

---

---

### What can't I claim?

Stamp duty charged by your state/territory government on the transfer (purchase) of the property title – may be included in calculating the capital gains tax

Borrowing expenses on the portion of the loan you use for private purposes (for example, money you invest in a super fund).

---

---

---

---

---

---

---

---

---

---

### Repairs & Maintenance

Repairs are to make good or remedy defects in, damage to or deterioration of the property.

Maintenance is to prevent deterioration or fix existing deterioration.

**Can claim an immediate deduction**

---

---

---

---

---

---

---

---

---

---

### Improvements

When we say 'improvement' we mean work that:

- provides something new
- generally furthers the income-producing ability or expected life of the property
- generally changes the character of the item you have improved
- goes beyond just restoring the efficient functioning of the property.

**Needs to be depreciated over a number of years**

---

---

---

---

---

---

---

---

---

---

### When is a repair not a repair?

If you replace something clearly identifiable & separable even if broken – e.g. stove, set of kitchen cupboards it is likely to be an improvement

If you used a different material to what was previously used - e.g. replace wooden cladding with plastic cladding it is likely to be an improvement

Make sure you get detailed invoices especially if work has several components

---

---

---

---

---

---

---

---

---

---

### Repairs & Timing

REPAIRS completed BEFORE a property is rented

- incurred before income is earned
- classified as improvements
- depreciable not deductible

---

---

---

---

---

---

---

---

---

---

### Repairs & Timing

REPAIRS completed DURING a property is being rented

- if attributed to fair wear and tear it is deductible
- otherwise an improvement and depreciable not deductible

---

---

---

---

---

---

---

---

---

---

## Repairs & Timing

REPAIRS completed AFTER a property is being rented

- if attributed to fair wear and tear from tenancy then deductible
- otherwise an improvement and not deductible until property sold

---

---

---

---

---

---

---

---

---

---

## Repairs & Timing

ASBESTOS is an environmental hazard

- Removal is a repair not an improvement if relates to an investment property
- **Deductible in full**

---

---

---

---

---

---

---

---

---

---

## Depreciation

Allowable tax deduction to take account of the fair wear and tear and reducing value of assets.

Two Parts:

- Fixtures and Fittings
- Building or Capital Works

Prime Cost or Diminishing Value?

---

---

---

---

---

---

---

---

---

---

## Depreciation – Fixtures & Fittings

Limited to new plant and equipment for residential rental premises  
Purchasers of existing plant and equipment are unable to depreciate (forms part of the cost base for CGT purposes)  
**No claim for second hand depreciating assets**

---

---

---

---

---

---

---

---

---

---

## Depreciation – Fixtures & Fittings

If you acquire newly developed property, may be able to still claim  
ATO says that “residential premises” include commercial properties **able to be used** for residential purposes – boarding/rooming houses etc.  
This definition also applies to travel

---

---

---

---

---

---

---

---

---

---

## Depreciation – Building

Building & Capital Improvements  
16/9/87 - present  
2.5% of building cost when built

## Selling a Property – ATO Requirements

- ATO assumes seller is foreign when selling a property over \$750,000
- Means purchaser is required to withhold 12.5% of purchase price
- **To avoid this**, the entity with legal title needs to obtain a clearance certificate from the ATO confirming they are a resident **before** settlement

## GST & One-off Transactions

When do one-off transactions require GST registration?

- Do activities show **profit intention** clearly?
- If not goes to motive

Considerations of Motive

- Does it provide income or personal enjoyment? (Not a profit motive)
- Frequency of similar transactions
- Is it preparing asset for sale? Scale of activities

---

---

---

---

---

---

---

---

---

---

## 10% Method or Margin Scheme

When does it apply:

- When you are selling a property
- Must be a business transaction (profit intention) on applicable properties e.g. on new residential or commercial
- You didn't claim GST on purchase
- Sold to you under the margin scheme or
- Seller wasn't GST registered or GST wasn't applicable
- Buyer and Seller need to agree in writing that the margin scheme will be used – **So put it in the contract of sale!**

---

---

---

---

---

---

---

---

---

---

## Residential Transactions & GST

Types of Residential Properties

- New residential
- Residential "off the plan"
- Existing Residential

What makes a property "new"?

- Never been sold as residential before
- Been created through "substantial" renovation
- New building replaces demolished building

---

---

---

---

---

---

---

---

---

---

## Commercial Property & GST

### Purchase of Commercial Property:

- If seller is registered for GST & you (the purchaser) intend to use building in your GST registered business you can claim GST credit on purchase
- If the seller applied the margin scheme you can't claim GST
- Most sellers use "going concern" & is sold GST free
  - Sale** - May be eligible for margin scheme
  - Going Concern

## Capital Gains Tax (CGT)
